

CONCERT TECHNICAL RIDER 2025

*****This document supersedes all previous technical information and is subject to further revision**
(This rider has 14 pages)***

PRODUCTION OFFICE:

Production Manager

Hilko Nackaerts +32 475 4772 34 hilko@skynet.be

XIX. TECHNICAL RIDER

A. PURCHASER'S ATTENDANCE: CONTROLLING DECISIONS

1. Purchaser agrees to furnish at his own expense his personal representative capable of making any decisions pertaining to the engagement from the time of arrival of the production equipment through the time of departure. This representative must have copies of this entire agreement together with any riders, copies of all mail grams and letters pertaining to the engagement.

Purchaser's representative will remain in the immediate backstage area and must be in constant contact with The Experience Road and/or Production Manager. The Experience Production Manager will make all decisions relative to the staging of The Experience show.

2. Purchaser will provide The Experience with telephone numbers (business and residence) where Purchaser's principal and representative maybe contacted during the fourteen days prior to the engagement. The person signing this agreement on behalf of Purchaser will be personally present at the place of the engagement from two hours prior to show time.

3. Instruments and properties shall not be removed, relocated and/or used by any person other than Road/Production Managers of The Experience without the express permission of The Experience Production Manager.

4. During the The Experience performance any other musical equipment shall be in an area completely off stage. No movement of any equipment may take place with the The Experience is on stage.

B. STAGING

With the exception of personnel directly involved with the running of the show, the stage and the immediate surrounding area will be cleared completely during the performance, the stage area will be under the absolute supervision of The Experience Production Manager. The security guards at each access point will be so informed and there will be no exceptions.

Purchaser shall provide at his expense a permanent stage 60' wide by 40' deep by 5' high. The surface of the stage floor must be a smooth finish (no grooves or protrusions, and friction less).

C. MIXING POSITIONS

Both Sound and Lighting mixers shall be placed at stage center seventy-five feet back. Purchaser will hold appropriate number of seats closer than the mix area to reseat patrons who will be displaced by the positioning of the mixing consoles.

D. SPOTLIGHTS

1. Purchaser agrees to provide for the use of The Experience four "Super Troupers". In some case it may be necessary to remove seats so that temporary follow-spot platforms and spotlights can be installed. These platforms and spotlights should be installed prior to State Call and no later than mid-day the day of the performance. All spots must be placed to have a clear view of the stage.

The Super Troupers must be in good working condition, each with four sets of carbons, good working irises and dousers, and six color boomerangs, all cleaned and tested prior to the performance.

1. Purchaser agrees to provide spotlight operators. Operators must be available for thirty minutes prior to show time for pre-show briefing. Purchaser will ensure that operators are at their position not less than twenty minutes prior to commencement of Opening The Experience performance for final instructions and headset check. Any overtime incurred due to Spotlight Operators tardiness will be the direct responsibility of Purchaser.

E. *INTERCOM*

Intercom stations will be at the four house spot locations, the light mix location, houselights control, and upstage right.

F. *SOUND SYSTEM CAPACITY*

The Experience sound system is able to cover up to a 3000-seat hall. If Purchaser's date utilizes a hall larger than 3,000 seats, Purchaser agrees to provide additional speaker cabinets, power amps, and connecting cables. In this situation Purchaser must contact Road Manager four (4) weeks prior to concert to receive assistance in locating a compatible equipment. (Note: This may affect other areas of technical rider, i.e., Load- In, power requirements, etc.).

G. *STAGE RISER REQUIREMENTS*

8' x 12' x 24" (240cm x 366cm x 40cm) Horn Riser

8' x 8' x 24" (240cm x 240cm x 60cm) Drum Riser

8' x 8' x 16" (240cm x 240cm x 40cm) Keyboard #2 Riser

*8' x 8' x 8" (240cm x 240cm x 20cm) Percussion Riser (***On a shared stage only, riser must have wheels.***)

Risers should be positioned 5m to 6.5m from the front edge of the stage. For any questions, contact the production manager.

H. *BAND EQUIPMENT, SOUND SYSTEM, STAGING & INPUT LIST AND LIGHTING REQUIREMENT: SEE*

EXHIBITS A, B, C & D

- I. Purchaser shall be responsible to supply the Artist's backline exactly as it is stated in Exhibit "B" of this Agreement. Any changes will not be acceptable unless previously agreed to by Artist's representative. Should any changes be made that are unacceptable, Purchaser will be required to pay a fine of \$1,000.00 USD for each musician whose gear is not as per the Exhibit.

Initial _____

- J. Please provide 32 bottles of room temperature water and 20 towels for the stage. Do not put them in the dressing room.

If sound and lights are to be supplied by Purchaser, than all items in this rider dealing with load-in, crew meals, power, etc. will be up to the Purchaser so long as the sound The Experience sound check is as per this rider.

XX. CREW CALLS/PERSONNEL

A. MOVE-IN

Purchaser agrees to provide (4) to (6) stagehands for the loading in of backline gear. Crew shall have total access to building by 1:00 PM. on the concert day. However, should access be needed to prior to this, Purchaser will be notified.

B. SOUND CHECK

1. Purchaser agrees to provide (2) to (4) stagehands for SOUND CHECK.
2. Purchaser agrees to have the entire setup (PA/Monitors/Lights/Backline) up and running 3 hours prior to Soundcheck with Band.
3. The show requires a band and technical rehearsal to begin two hours prior to doors opening.
4. No audience will be allowed to enter the place of performance until Sound Check has been completed to The Experience satisfaction. Purchaser agrees to provide security to ensure auditorium is clear of all persons not involved with Sound Check.
5. Doors will not be opened until The Experience Production Manager gives permission.

C. SHOW CALL

Purchaser agrees to provide (2) to (4) stagehands for SHOW & (4) to (6) stage hands for the loading out of gear. Spot Operators for spotlights & House lights Operator (preferably electrician).

- D. All rooms should be fully accessible by 1:00 PM of the concert day unless otherwise requested.

Initial _____

XXIII. LIGHTS DURING SHOW

The Purchaser will make arrangement for all lights not specifically required by local safety ordinances to be turned off during performance. This especially applies to clocks, scoreboards, advertising billboards and concessions in the hall. All doorways to lighted hallways will be curtained.

EXHIBIT "A"

THE EXPERIENCE SOUND RIDER – FOH SYSTEM

A sound system of The Experience choice (based on consultation with The Experience Manager, Road Manager and/or Production Manager) will be provided at no cost to The Experience.

THE EXPERIENCE SHALL HAVE FINAL DECISION REGARDING EQUIPMENT PLACEMENT. THE NUMBER OF FRONT HOUSE BOXES WILL BE DETERMINED BY THE HOUSE ENGINEER AND THE SIZE OF THE VENUE

The sound system must have complete coverage of the entire listening area. It must be a 3- or 4-way active system capable of 110 db-SPL from 30Hz - 17KHz with no detectable distortion at the mix position. The front house system should be in true stereo sub speakers can be on the stereo mix or on an independent volume control (**preferred**). The house mixing console must have a minimum of 48 inputs, each input shall have 4 band sweep or parametric equalization, with at least 8 auxiliary sends, phantom power, variable hi pass filter and 8 assignable subgroups. **The sound system must be in true stereo. No frontfills on the stage.**

1. No audience will be allowed to enter the place of performance until Sound Check has been completed to The Experience satisfaction. Purchaser agrees to provide security to ensure auditorium is clear of all persons not involved with Sound Check.
2. Doors will not be opened until The Experience Production Manager gives permission.

E. *SHOW CALL*

Purchaser agrees to provide (2) to (4) stagehands for SHOW & (4) to (6) stagehands for the loading out of gear. Spot Operators for spotlights & House lights Operator (preferably electrician).

- F. All rooms should be fully accessible by 1:00 PM of the concert day unless otherwise requested.

GAIN SHARING BETWEEN THE FOH AND MONITOR CONSOLES IS UNACCEPTABLE!!!

PREFERRED FOH MIXING CONSOLES:

(Must always be latest software version) (Surface have at least 24 faders)

In order of Preference:

Digico SD10, SD/Quantum 5, SD12, Quantum 852, 338, 326 **NO Q225 or SD9**

Yamaha Rivage PM5, PM7, PM10, CL5, DM7-EX

Allen & Heath DLive S5000, S7000

Midas Pro 2

PREFERRED FOH SPEAKERS SYSTEMS:

L'Acoustics K Series

d&b GSL & KSL with Array Processing w/ SL-SUB or B22-SUB

d&b J Series with ArrayProcessing w/ J-SUB or B22-SUB Driven by D80 amplifiers

Adamson: Y Axis Series

JBL VTX

Mixing console must have DESK LAMPS so that console maybe seen clearly. Mixing console is to be placed 2/3 of length of house from stage and in the center where possible. Venue must provide one of the preferred consoles listed above for FOH.

COMMUNICATIONS:

- 1.– **Shout System** between FOH & Monitors independant from the consoles **Must be provided!!!**
- 2.– Switched mic at the monitor position for communication between the engineer and musicians.
- 3.– Switched mic at FOH position for communication between the FOH mixer and the Stage.

All electrical equipment and service shall be grounded and must exceed all local applicable codes.

WIRELESS MICROPHONE REQUIREMENTS (8 CHANNELS):

VOCALS:

4 x SHURE BETA 58 WIRELESS HANDHELD MICROPHONES WITH SHURE U4RD or AXIENT WIRELESS RECEIVERS (Line, set gain and sensibility to zero) **The 4 mics have to be the some model and capsule.**

We do need three (3) Round base straight stands for the singers.

HORN SECTION:

4 x SHURE BELTPACKS WITH SHURE U4RD or AXIENT WIRELESS RECEIVERS (Line, set gain to zero and sensibility to -6db)

4 x DPA 4099 microphones with **SAME IMPEDANCE** and with DAD 6010 Miniature Series Microdot to TA4F Microphone Adapter. ***Horns' wireless units must be SHURE Systems as we are using DPA 4099 mics with Shure adapters!!***

4x DPA CM4099 clamp mount (preferred) or STC4099 mounting clip.

For Aerophone, we will need a wireless system with 1/4" cable adapter. In case of unavailability of a fifth beltpack, a DI at the position of the Bongos will work.

Shure PG, SLX, GLX, BLX series and UA series wireless units unacceptable!!!!

We have a video intro or audio intro if there are not screens. We will need that audio in FOH and monitor consoles.

STAGE POWER: THE SOUND COMPANY SHALL PROVIDE ALL STAGE POWER FOR BAND GEAR. A MINIMUM OF (2) 20 AMP CIRCUITS ON INDIVIDUAL BREAKERS ARE NEEDED.

The Experience reserve the right to add or delete equipment as necessary. All equipment and placement of equipment is subject to approval of The Experience Stage Manager and/or The Experience Production Manager.

THE EXPERIENCE MONITOR SYSTEM

Please ensure you read in depth the monitor system requirements. If you have any questions relating to the monitor system, please request to speak directly with the monitor engineer.

PREFERRED MONITOR MIXING CONSOLES:

(Must always be latest software version) (Surface have at least 24 faders)

Digico Quantum or SD Series (SD5, SD7, SD10, SD8, SD9, SD12-96) No SD11, SD12 or D2 racks.

Allen&Heath dLive S Series (S7000, S5000, S3000) C Series (C3500)

Yamaha RIVAGE Series (PM7, PM10, PM5, PM3), DM7, CL5

Mixing console must have an unobstructed, clear and direct view of the entire stage, preferably positioned on stage left. Wireless microphone and IEM racks must be positioned in a way that allows clear visibility and full control by the monitor engineer at all times.

*All consoles must have external stage rack to meet the input and output requirements. **Please specify the stage rack model, console version and connection type that is going to be used.***

Wireless In Ear Monitor:

We require 14 x complete wireless systems, same brand and model (*14 x transmitters & 16 x belt pack receivers*) All setup in Stereo with packs set to default and limiter off and high gain.

Preferred wireless IEM: **Shure PSM 1000**

Acceptable systems are: Shure PSM 1000, Shure PSM900 or Axient, Sennheiser G3/G4 EW300 **(NO Spectera)**

All systems must be wired to antenna combiners using large antennas like A500CP, HA8089, RV CO Beam with high quality BNC cables like RG8 or RG213. Placed far enough away from other antennas and covering the entire stage. **NO Lambda ½ UHF Antennas.**

Please add 1 x extra antenna, which is to be wired directly for the monitor engineers' system.

Wired In Ear Monitor:

We require 2 x complete wired systems (2 x body pack receivers and cable). Both to be setup in Stereo.

Acceptable systems are Shure P9HW or Shure P6HW.

Please also provide enough batteries for soundcheck and new ones for show for all the wireless and wired IEMS as well as wireless microphones + 2 x AA Duracell or energizer batteries.

Monitor/Side-fill Speakers:

10 Bi-amped floor wedges. All wedges must be identical and powered by the same type of amplifiers.

Acceptable brands & models include:

D&B Audio: M2, M6, M4 (*must not be used with D6 amplifiers*)

L'Acoustics: X12, 12XT, HiQ15

Meyer Sound: MFJ-210, MFJ-210 (No UM-1P)

Adamson: M12, M15

Nexo: PS12, PS15 (*Only with TD controller*)

Martin Audio: LE1200, LE1500, XE Series

Drum Sub to be a dual 15" or a single 18" direct radiated, placed behind the riser and **raised to the height of the back of the drummer**. It must a dedicated amplifier with processing.

Side fills to be a decent 2/3-way system. This can be a point source system, or a Line array flow or ground stacked.

All Monitor & subs must not be used with underpowered amplifiers. The show produces very dynamic sounds and will demand headroom all amplifiers/processors must be consistent with all the monitors they are powering i.e they all must be the same model and power rating.

In the case of festivals or shared stage setups, kindly inform us in advance and provide the festival patch, including both input and output lists if they differ from our own.

~ The EW&F Experience Stage Plot 2025~

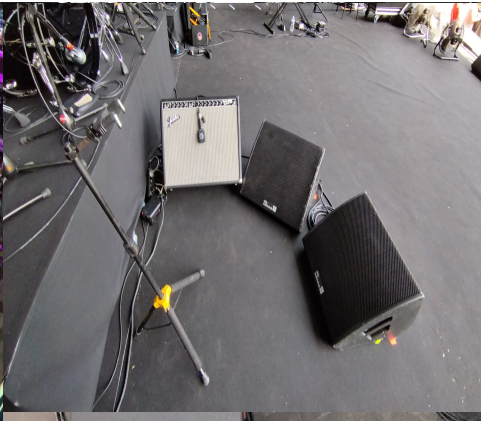

Risers:
3X2Meter for drums
3X2Meter for Percussion
(only needed when we
have to move the
percussion. If percussion
stays we build it on the
floor no riser needed)
4x2Meters for Horns
2X2Meter for Keys #2

EXHIBIT "B"

THE EXPERIENCE BACKLINE GEAR LIST 2025

Keyboard Rig # 1

Keyboard Rig # 2

B. Keyboard Rig #1 DSL:

(1) Korg Kronos, Piano or Korg Nautilus music workstation must have 88 keys. Alternatives are Yamaha Motif 8 or Yamaha S90 (Must have 88 Weighted Keys!!)

NO Yamaha montage 8, due to Midi problems

(1) Single Tier Double Braced X Stand, (no double stands or ultimate etc.)

(1) K&M round Top Drum Stool

(1) *Small Table or Case top for computer*

(1) *Shure P6 or P9 HW hardwired beltback monitor w/ TA 4F to stereo XLR cable.*

(4) ¼ Inch jack jack Cables (3m or 10' minimum) – **Must be checked prior to hook up**

(1) Stereo volume pedal (**Boss FL-500L**) - **Must be checked**

(1) Sustain pedal

C. Keyboard Rig #2 USL (PLAYED FROM A SITTING POSITION):

(1) Yamaha Motif XF7 with sustain pedal

(1) Yamaha Motif XF8 with sustain pedal please check sustains work.

(2) Single Tier Double Braced X Stand, (no double stands or Apex style etc.)

(1) K&M round Top Drum Stool

(2) Stereo volume pedal Korg XVP-20 - **Must be checked**

(1) Small Table or Case top for **computer (1) Towel to clean Keyboard**

(8) 15' or 5m ¼ Inch jack jack Cables - Must be checked prior to hook up

(1) Shure P6 or P9 HW hardwired beltback monitor w/ TA 4F to stereo XLR

D. Bass Rig:

(2) **Aquila tone hammer 700 or 500** Bass Amp Heads

(2) SWR Goliath III 4x10" Bass Cabinets (please check tweeters are working and supply spare fuses for tweeters)

OR

(2) **EBS 600** bass head

(2) EBS 4 x 10 cabs

Plus

(1) Hercules tripod Guitar Stand

(2) High quality 1/4" jack cords 20 feet. 1 x 3" patch cable (1) boss Tu3 tuner

E. Drum Kit

Pearl Drums (Masters or Reference series preferred)

PEARL MASTERS

8x7 Tom

10x7 Tom

12x8 Tom

16x16 Floor Tom

22x16 Bass Drum

14x6.5 Snare Drum

14x6.5 Snare Drum (Pearl makes a Maple/Mahogany Free Floater) Note: This is specific for the sound we need to match the records!

(Remo Heads)

Ambassador Clear

Ambassador Hazy Snare Side

Powerstroke P3 Coated (14x6.5)

Emperor Coated and Ambassador Hazy Snare Side (14x6.5 Maple/Mahogany).

HARDWARE

H2000C hi-hat stand

S2000 snare stand x 2

P Demon Chain Pedal (single) D2500 throne

B1030 Boom Cymbal Stand x6

CYMBALS (SABIAN) Order from Left to Right from drummer's view

14" Hi Hats HHX Evolution

18" Crash Legacy or Evolution (Sabian)

18" Crash Legacy or Evolution or HHX Explosion (Sabian)

10" Splash Legacy or Evolution or any HHX (Sabian)

21" or 22" Ride Groove Ride or Evolution Ride or any HHX Ride

18" HHX Explosion Crash or Evolution Crash or any HHX Crash

18" or 16" HHX O-Zone Crash

No 16" or 17" Crash (too small)

19" Crash can be used with models listed above.

F. Percussion Rig (*David Leach is endorsed by LP - Latin Percussion*):

Preferred Conga set: LP Galaxy – Giovanni Series

(3) Congas - Quinto (11"), Conga (11 3/4"), Tumba (12 1/2") plus (1) Pair Matching Bongos

Stands: (3) LP® Collapsible Cradle or Gibraltar Medium/Large Single Conga Stands (long legs)

(1) LP® BONGO STAND W/CAMLOCK STRAP or Gibraltar 6716 heavy duty Bongo Stand

*******All Drums Must have new Remo Heads*******

LP-Classic Series Timbales - (2) 13" and 14"/ or 14" and 15" with standard cowbell mount (holder)

(7) Gibraltar Boom Cymbal Stands and a roland SPD stand.

(5) Various Sabian Cymbals – 10"/12"/14"/15"/16"/17" Splash, Medium Crash, Thin Crash & 18" or 20" China Cymbal

(1) Latin Percussion work station or Gibraltar Percussion Workstation with Mounting Brackets

(1) LP Wind Chime with Stand or Mounting Bracket

(3) LP Cowbells (mountable) - Small LP Cha-Cha, Medium and Large

(1) Hand Held Tambourine – **Must Provide**

(3) Various shakers

(1) Rug or Carpet 6' x 8'

(1) Small percussion table

G. Additional Supplies:

(2) Pairs or Drumsticks Vater 5a

(1) Drum moon Gel

(1) Roll of high quality black Gaff Tape

(2) 9V Block Battery Procell for each show.

(2) Hercules Trombone Stand

(2) Trumpet stand

(2) Hercules Auto-Grip Alto/Tenor saxophone stand or 1 double sax stand

(2) Electric Fans (1 drum position and 1 at trombone position)

H. Guitar

(2) Fender Twin Reverb amp

(1) Power converter to 110 power for FX pedal

(1) Spare fender Strat (right handed) with 10 gauge strings.

Please supply an extra spare set of 10-46 gauge guitar strings.

(2) Hercules guitar stands
